Art Unit: 1746

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3, 8 and 12-18 are rejected under 35 U.S.C. 102(b, e) as being clearly anticipated by either Germany'349 (Germany 31 33 349) or Hewitt et al. (U. S. Pat. No. 6,950,032).

Re claims 1 and 15 for example, note that Germany'349 and Hewitt are each cited disclosing a washing machine comprising: leakage containment means (12 in Germany'349 and unnumbered in Hewitt) for accumulating leaking water; and leakage detection means (28 in Germany'349 and 14 in Hewitt) for detecting an accumulation of leaking water in said leakage containment means.

3. Claims 4-7 and 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Germany'361, Japaqn'685, Lehman, and UK'296, note the leak detectors.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.
